DETAILED ACTION

Response to Amendment

Applicant's amendments to the claims, filed 5/14/2007, are accepted and appreciated by the examiner. In response, all previous objections to and rejections of the claims are withdrawn.

Allowable Subject Matter

Claims 1-7, 9-15, 17, 19-20, 22-24 and 26-36 allowed.

The following is an examiner's statement of reasons for allowance: The combination of elements in the independent claims, specifically, a multiple-stage filter each having its own separate voltage-to-current converter, current multiplier and output being used together to modify a channel response, is non-obvious over the prior art of record. Further reasons for allowance may be found in the previous office actions, particularly, the final rejection filed 3/15/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
